

Lukas Gazo

November 4th 1987, Skalica, Slovakia

PROFILE

Experienced Software Engineer focused on frontend and modern JavaScript ecosystems, with a solid background in architecture, system design, and end-to-end delivery of scalable, performant products. Proven experience in international product teams across Europe and North America (USA, Canada). Passionate about clean code, thoughtful system design, and high-quality user experiences with measurable impact.

PROFESSIONAL EXPERIENCE

Finviz.com s.r.o. — Software Engineer
Bratislava, Slovakia | April 2026 - Present

Kiwi.com s.r.o. — Software Engineer
Bratislava, Slovakia | May 2019 - March 2026

- Led end-to-end delivery of internal customer service platforms focused on processing and operational workflows, from solution design to production release.
- Designed frontend architecture and authored technical design documents for scalable, maintainable systems.
- Built and evolved reusable UI components and patterns aligned with design systems, improving consistency and developer efficiency.
- Collaborated cross-functionally with product, design, and backend teams to deliver reliable, well-tested features.

Tech stack: JS, TS, React, Relay, Next.js, Prisma, tRPC, GraphQL, Node.js, Cursor (AI), Storybook, Jest, Cypress, Git, CI/CD, Datadog, Docker, Kubernetes, GCP.
